### Description of Services:

ACE Tutoring Services, Inc. offers one-on-one and small group tutoring in English-language arts and mathematics to students from kindergarten through 12th grade. Our tutoring services are provided at student's home, school, local library or community center. Parents and student can choose their own convenient tutoring schedules during after school hours on weekdays, and/or anytime on weekends.

The instructions and materials used by ACE Tutoring strictly follow the Texas Essential Knowledge and Skills (TEKS), and are organized according to each student's unique academic needs. Our tutoring program complements the instruction and curriculum that each student receives from his/her regular classroom teacher. ACE Tutoring Services, Inc. has been providing tutoring services since 1997, and is currently an approved SES Provider in the state of California, Washington, Arizona, Ohio and New York. Throughout the years, ACE Tutoring has established a solid reputation. ommunities by improving students' academic achievement.

### Description of Instructor Qualifications:

All of our tutors possess at least a bachelor's degree, while some possess advanced degrees; many of our tutors are also certified teachers from the local school districts. Most tutors have at least one year of previous tutoring or teaching experience. All tutors must go through an extensive background check to ensure they have no previous criminal record; proof of a negative TB test is also required for all tutors.

Every tutor is required to go through an interview and orientation training sessions with our staff before he/she begins tutoring. During the training session, tutors are trained on how to use our instructional materials and assessment tests, how to apply our tutoring methods on students, and various company policies and procedures (such as procedures for reporting child abuse and missing children). All tutors are also provided with on-going training and support on the use of curriculum materials and instructional methods.

### Description of Evidence of Effectiveness:

Students who participated in our tutoring program during the 2005/06 school year showed an average gain of 20 points ( $P=9.04 \times 10^{-68}$ ) on the Basic Achievement Skills Inventory (BASI) post test. Students who received our tutoring services during the 2006/07 school year showed an average gain of 22.8 points ( $P=6.25 \times 10^{-28}$ ) on the BASI post test. This outcomes data provides compelling evidence that ACE Tutoring is providing instruction that is high quality and effective in improving students' academic achievement. Additional evidence of our success comes from the Los Angeles Unified School District (LAUSD) "The Impact of Supplemental Educational Services Participation on Student Achievement: 2005-06" report [Jordan H. Rickles and Melissa Barnhart; 2007]. Data in this report shows that students tutored by ACE Tutoring Services, Inc. in school year 2005-06 showed the second highest overall improvement in Math California Standards Test (CST) score, and the fifth highest overall improvement on ELA CST score, when comparing to all other SES providers with more than 30 students in LAUSD during 2005-06.
